## PROCESS MANUFACTURING FOR ACUMATICA

### **EXTEND ACUMATICA TO MEET YOUR UNIQUE PROCESS MANUFACTURING NEEDS**

Process Manufacturing for Acumatica by eWorkplace Apps extends Acumatica to meet your unique process manufacturing needs. It enables process manufacturers to streamline production and bring products to market faster, while reducing costs and complying with ever-changing customer, industry, and federal regulatory requirements. The eWorkplace Process Manufacturing for Acumatica solution manages all the manufacturing complexities inherent to the products, processes, and variables of process- and formula-based manufacturing industries, such as:

- Food & Beverage
- Meat Processing
- Packaged Products
- Chemicals
- Paints & Coatings
- Personal Care & Cosmetics
- Nutraceuticals / Supplements
- Pharmaceuticals / Life Sciences
- Hemp & CBD

### **BEST-IN-CLASS SOLUTION. INDUSTRY-LEADING INNOVATION. EXCLUSIVELY FOR ACUMATICA.**

Process Manufacturing for Acumatica by eWorkplace Apps leverages the industry-leading innovation of BatchMaster Software to offer a best-in-class process manufacturing solution exclusively for Acumatica. The combination of eWorkplace's Process Manufacturing and Acumatica delivers one end-to-end, industry-specific business solution for process manufacturers. This enables all business functions and process manufacturing operations to be connected, managed, and coordinated from one central place with a single source of truth.

### KEY BENEFITS

#### APPLICATION BENEFITS

- From the developers of BatchMaster Software, a global market leader in process manufacturing software for 30+ years
- Best-in-class process manufacturing solution exclusively for Acumatica
- Extends Acumatica to deliver one end-to-end, industry-specific business management solution for process manufacturers

#### BUSINESS BENEFITS

- Increase visibility
- Accelerate product development
- Balance inventory levels
- Scale up production
- Ensure high quality and compliance
- Streamline operations and the supply chain
- Respond to changing customer demands
- Make more informed decisions, faster
- Maintain a competitive advantage

## DATA SHEET

### EWORPLACE PROCESS MANUFACTURING FEATURES AND CAPABILITIES

<b>Product Development / R&amp;D</b>	Engage in product testing and development without interfering with current production and document testing notes to ensure consistency and quality
<b>Lab &amp; Formulation</b>	Dynamically adjust formulas during both product development and production to meet specified target characteristics
<b>Process Bills of Material Management</b>	Extend Acumatica's Bill of Material for your process manufacturing needs
<b>Costing and Comparative Analysis</b>	Roll up existing and theoretical product costs, as well as fixed, tiered, and scalable costs, to formulas, intermediates, and finished goods during product development
<b>Batch Production and Optimization</b>	Create and schedule the optimal number of batch jobs required for a product formula and its multiple packaging configurations
<b>Weighing Sheet</b>	Stage and weigh up of materials that are going to be used in the production process with efficiency and accuracy
<b>Compliance Reporting and Labeling</b>	Keep compliant with industry-specific and federal regulations, lot traceability reports, transactional audit reports, and shipping documentation
<b>Traceability</b>	Quickly track and trace suspect materials from receiving through shipping, shipping back to receiving, or anywhere within WIP
<b>Catch Weight</b>	Manage products within the supply chain in units of measure that are independent of each other for more accurate costing and pricing
<b>Co-product &amp; By-product</b>	Correctly manage and cost co-products and by-products
<b>Quality</b>	Integrate end-to-end quality control with eWorkplace's Quality Management for Acumatica
<b>Reporting &amp; Analytics</b>	Create, manage, and distribute reports that improve transparency and decision making

### FUNCTIONALITY BENEFITS

- Gain more control over batch production of finished goods, including co-products and by-products
- Safeguard formulas or recipes
- Create separate formulas and packaging specifications
- Dynamically adjust ingredients to meet target values of intermediates and finished goods
- Issue inventory to production based on those passed through QC
- Analyze costs and yields
- Manage QC activities and generate industry-specific compliance labeling and reports

### About eWorkplace Apps

eWorkplace Apps extends Acumatica to meet your unique manufacturing and distribution needs. eWorkplace Apps is a spinoff of BatchMaster Software, a 30-year global market leader in manufacturing software. Based in Irvine, CA, eWorkplace Apps is comprised of over 30 Acumatica developers, implementation consultants, and analysts with deep industry expertise to help optimize your business on the Acumatica platform.
