

Quality Management Suite For Distributors

Distributors must procure goods from qualified suppliers to guarantee the receipt and shipment of high-quality products

eWorkplace Apps Quality Management Suite (QMS) for Acumatica will digitally revolutionize your operations

Identify and buy from qualified vendors with:

Vendor Certification

- Ensure vendor is certified and meets desired certifications adhering to industry standards
- Configure warnings and restrictions for purchasing items
- Use certification as a benchmark for selecting strategic partners

Vendor Rating

- Rate your vendors based on key performance indicators that include price, quality, quantity, and on-time delivery
- Evaluate vendors and recognize top performers

Streamline quality assurance with:

Receiving QC and Shipping QC

- Apply quality control tests on incoming items and items to be shipped
- Supports AQL and Sampling
- Ensure product meets specifications and comply with customer requirements

Employing rigorous quality testing, vendor rating systems, and certifications, distributors empower themselves to construct a robust and high-performing supply chain. Build strategic partnerships, mitigate risks, and promote continuous improvement to stay ahead in a competitive market and deliver unparalleled value to customers.
